ALTERNATIVE METHODS FOR EARNING CREDIT
CREDIT BY EXAMINATION WITHOUT PRIOR INSTRUCTION

EXAMINATIONS FOR ACCELERATION OR COURSE CREDIT

If a student in grades 1–12 wishes to accelerate to the next grade level or earn course credit without having received prior instruction in the grade level or course, the District shall offer opportunities in accordance with state law and State Board rules for the student to take a Board-approved examination for this purpose.

KINDERGARTEN ACCELERATION

In accordance with State Board rules, the Board shall approve procedures developed by the Superintendent or designee to allow a child who is five years old at the beginning of the school year to be assigned initially to grade 1 rather than kindergarten. Criteria for acceleration may include:

1. Scores on readiness tests or achievement tests that may be administered by appropriate District personnel.
2. Recommendation of the kindergarten or preschool the student has attended.
3. Chronological age and observed social and emotional development of the student.
4. Other criteria deemed appropriate by the principal and Superintendent

Acceleration Considerations

If your student needs a core course that is not offered in our middle school course guide, your student will have to take the course through TXVSN. This course will be paid for through the district. If your student needs to take an elective course that is not offered in the course guide, they can take the course through TXVSN. This course will not be paid for by the district. The student can also decide to wait until high school to take additional elective courses offered in our high school course guide. TXVSN courses are not included in a student's GPA.

Teacher/counselor recommendation- Teachers and counselors see your student on a daily basis and may be able to provide additional information regarding whether or not acceleration would be appropriate.

Course opportunities later in high school- In some situations, accelerating now may put your child in a position where he/she is limited in course options as a high school junior or senior. Make sure you are clear on the ultimate goal of acceleration.
